

Curb Adapter GPI

Standard Construction Features:

Curb adapters are designed to adapt standard curb cap dimensions to non-standard curb sizes. Adapters may be constructed of either aluminum or galvanized steel. Curb reducers may reduce by a maximum of 10 inches and curb adapters may extend up to 20 inches beyond the standard curb cap size.

Type	Cap Width (in.)	Cap Length (in.)	Actual Adapted Curb Cap Width (in.)	Actual Adapted Curb Cap Length (in.)	Adapter Height (in.)
Adapter	17	17	19	19	2.5
Adapter	17	17	22	22	2.5
Adapter	19	19	22	22	2.5
